WHERE ENERGY EFFICIENCY MEETS TIMELESS ELEGANCE

At the forefront of innovative design, Luxaflex Duette Shades are specifically engineered to provide both beauty and energy efficiency at the window all year round.

Offering the ultimate in light control, privacy and sophistication, Luxaflex Duette Shades provide the largest honeycomb range, including patented honeycomb fabrics, design options and operating systems.

Original Design

For over thirty years, Duette Shades have been the 'original and the best' honeycomb shade in Australia, and only brought to you by specialist Luxaflex dealers.

High Performance Honeycomb

Duette Shades provide a striking interior look whilst our patented and industry leading honeycomb fabric design offers superior insulation.

Fabric Collection

Available in a wide variety of luxurious fabrics, colours, and textures to complement any interior style, Duette Fabrics have undergone stringent testing to ensure they remain beautiful for years to come.

Light Control

Control and vary the amount of light entering your home with the choice of 3 opacities – sheer, translucent and blackout.

Complete Control

Choose from an unrivalled range of manual and motorised operating systems, designed for convenience and child safety.

Warranty

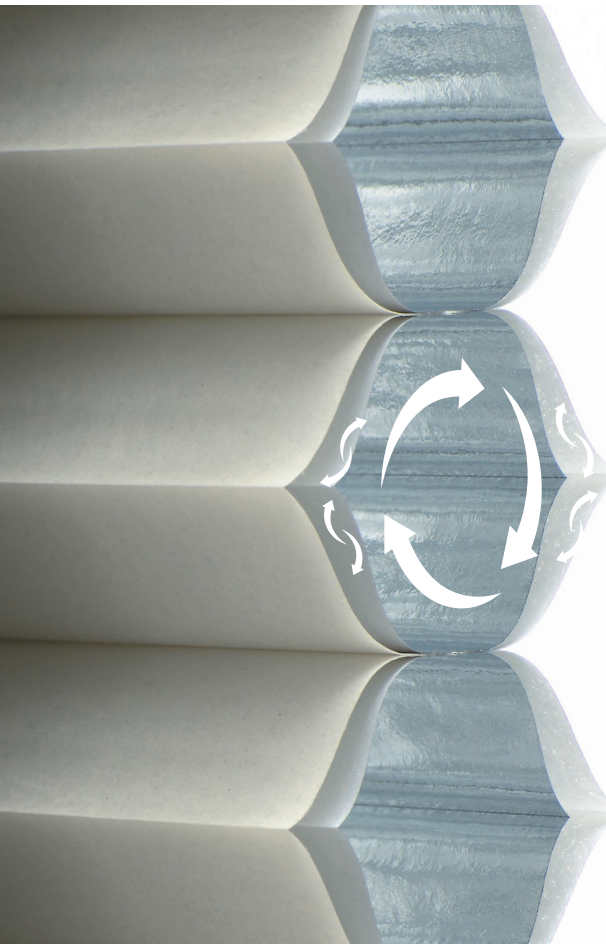

Enjoy complete peace of mind when investing in Luxaflex Window Coverings. We stand behind our product by offering a Five Year Manufacturer's Warranty#.

ENERGY EFFICIENCY

LUXAFLEX® DUETTE® SHADES

REDUCE YOUR ENERGY COSTS BY UP TO 43%* WITH DUETTE® ARCHITELLA® SHADES

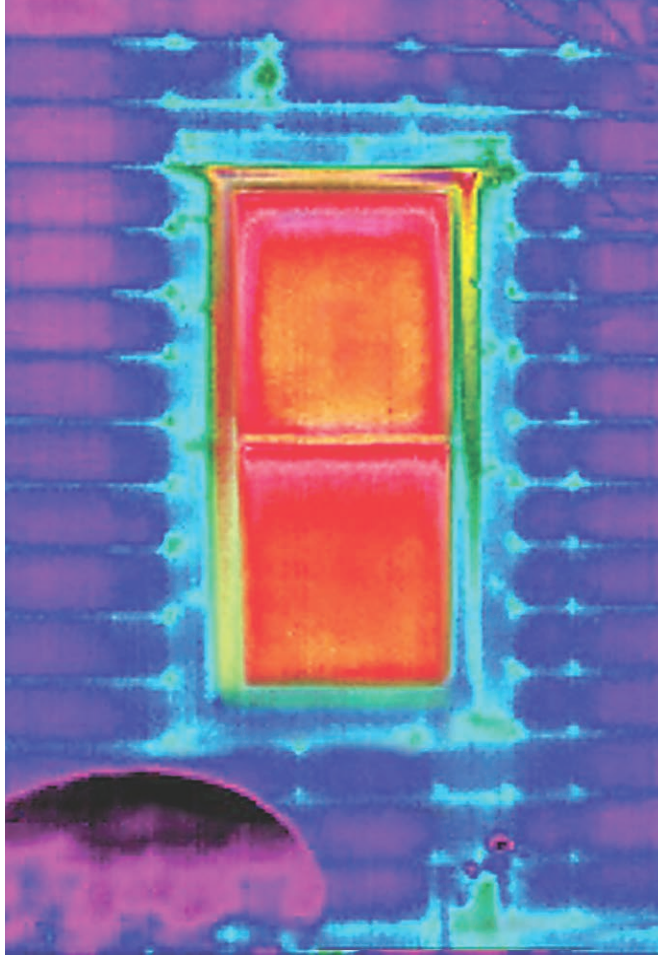

Duette Architella Shades

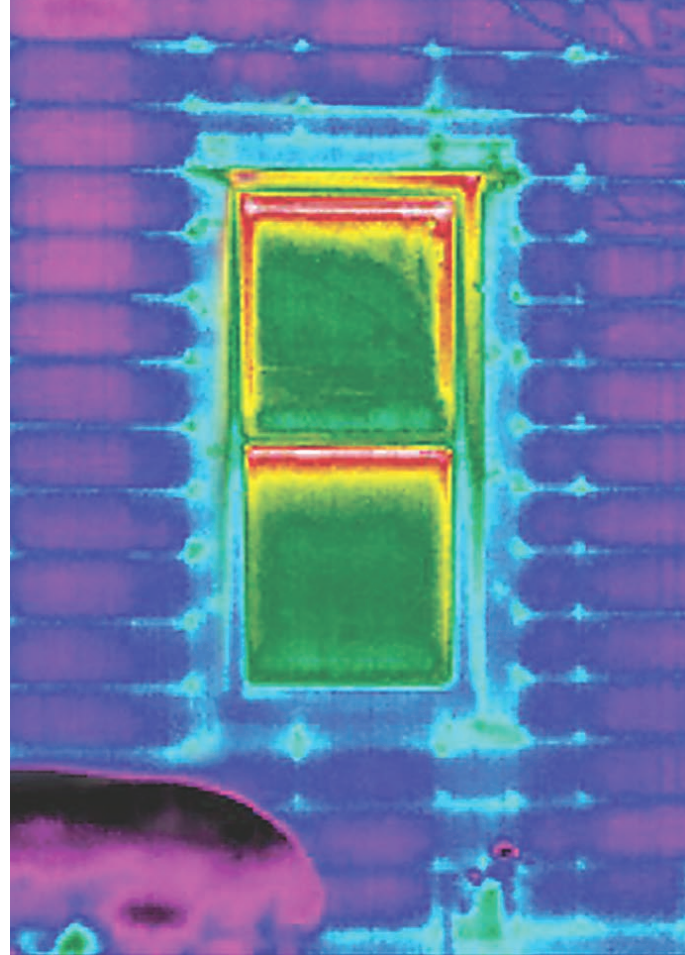

One of the greatest benefits of Luxaflex Window Fashions is the ability to control a room's temperature. Luxaflex Duette Shades offer the highest level of energy efficiency compared with any other window covering.

The revolutionary Duette Architella fabric range features a double honeycomb cell construction with four layers of fabric and three distinct insulating air pockets which traps air to provide extraordinary, energy efficient comfort throughout your home all year round.

* Savings are based on the installation of fully-recessed, reveal-mounted Duette Architella 20mm Blockout Fabric Shades in an average home in Sydney, compared with the House Energy Rating standard of Holland Blinds from AccuRate in that home. These calculations have been modelled by an independent third party. Savings will vary based on the window type and installation. † Based on information from NABERS (National Australian Built Environment Rating System). Visit www.nabers.com.au for more information. ^ The R-values are the combined measurement of 3mm (one-eighth inch) Cl glass (R=0.127) plus the window covering and are reported in metric SI units. Thermal properties are determined by a certified third party laboratory utilising accepted ASTM, NFRC and WES standards and procedures. Measurements may vary based on window type and method of installation.

Red indicates heat loss without window coverings.

With Luxaflex Duette Architella Shades

Did you know that up to 30%¹ of total heat loss from a home occurs through uncovered windows?

The Luxaflex Duette Architella covered window pictured above demonstrates significantly improved energy savings versus the uncovered window.

Duette Shades R-values	0.10	0.20	0.30	0.40	0.50	0.60	0.70	0.80
Duette Architella 20mm Blockout								0.78
Duette Architella 30mm Blockout								0.75
Duette Architella 20mm Translucent						0.61		
Duette Architella 30mm Translucent						0.58		
Duette 20mm Blockout Living fabrics					0.53			
Duette 20mm Midnight Blockout					0.52			
Duette 10mm Blockout Living fabrics					0.50			
Duette 20mm Symphony Translucent				0.42				
Duette 20mm Translucent Living fabrics			0.32					
Duette 10mm Classic Translucent			0.31					
Duette 10mm Translucent Living fabrics			0.31					
Duette 20mm Sheer Living fabrics		0.17						
3mm Cl Glass	0.13							

Duette® Shades R-values^

A product's "R-value" is a measurement of its ability to resist heat flow. In a home during winter, R-values indicate the ability of walls, roofs and windows to keep the heat inside. The higher its R-value, the more insulation a product provides. A fully-recessed, reveal-mounted Duette Architella Shade can increase the R-value of a 3mm single glazed window from 0.13 to 0.78, reducing the heat transfer through that window by 65%. Independent modelling has shown that this in turn can reduce an average home's heating costs by up to 43%*.

FEATURES AND BENEFITS

LUXAFLEX® DUETTE® SHADES

QUALITY THAT PROVIDES A LIFETIME OF ENJOYMENT

In addition to enhancing and managing the natural qualities of sunlight, the Duette Shades range is designed to provide a stylish and sustainable home environment.

Technically advanced and made to measure with precision, Duette Shades have undergone stringent quality testing so you can be sure you've invested in a reliable window covering that will look good for several years to come.

Total Blockout Solution

Duette Shades are cleverly designed to ensure minimal light gaps when paired with blackout fabrics. Opt for the patented Duette® LightLock® System for unparalleled darkness, perfect for bedrooms, nurseries and media rooms.

Versatile Designs & Styles

Design options such as Top-Down/Bottom-Up and Duette Duo-Lite make these shades versatile throughout the home including hard to reach windows such as skylights and specialty shape windows like arches.

Ultraviolet Protection

Protect your furniture and floors from fading with Duette Shades. Block harmful ultraviolet rays when your Luxaflex Shades are fully closed.

Sound Absorption

Improve your room's acoustics and keep exterior noise out. Duette Shades can absorb sound energy, helping to create a more quiet and tranquil room.

Indoor Air Quality

For a fresh and healthy home, Duette fabrics meet the certification requirements set by Greenguard® for low chemical emissions.

Maintenance with Ease

All of our high-performing fabrics are made from 100% Polyester and are anti-static to naturally repel dust and dirt. They are also resistant to fading and will maintain their crisp, neat pleats over time.

CUSTOM MADE TO MEASURE

LUXAFLEX® DUETTE® SHADES

Select the
finishing touch

STEP 1

SELECT THE FINISHING TOUCH

SELECT AN INNOVATIVE OPERATION

ULTRAGLIDE®, LITERISE, VERTIGLIDE, EASYRISE

EasyRise

Designed for effortless control and enhanced child safety, the energy efficient Luxaflex Duette Shades offer smart lifting solutions to suit any home and lifestyle.

Vertiglide Shades

Ultraglide®

LiteRise Shades

Ultraglide®

A cord-less click and walk away system using a retractable wand mechanism to ensure the wand remains a consistent length when raising or lowering. With no cords, this system offers enhanced child and pet safety and sleek interior finish.

LiteRise

An easy and completely cordless operating system, LiteRise shades feature a contoured bottom rail handle, for user comfortability for raising and lowering the shade by hand.

Vertiglide

A cordless side-to-side operation ideal for wide applications, sliding doors or as a room divider. Vertiglide can be operated manually by hand using a rail handle.

EasyRise

An intuitive continuous cord loop operating system that you can easily raise, adjust and lower by simply pulling on the cord. The cord loop returns back to the sleek headrail during operation, creating an endless cord.

STEP 1

SELECT THE FINISHING TOUCH

SELECT AN INNOVATIVE OPERATION

POWerview® MOTORISATION

Powerview Motorisation is an innovative wireless operating system which automatically controls and powers a wide range of Luxaflex internal and external window covering products creating the perfect room ambiance morning, noon and night.

Control your shades via the Pebble® Remote, smart device via the PowerView App or by voice control through Apple HomeKit®, Google® Assistant and Amazon® Alexa® integration.

“PowerView is a cost effective automation solution. Integrate with your existing home automation systems to create a whole-home connected experience.”

PowerView allows you to quickly create customised schedules that control all the shades in your home to operate together or in any combination you desire. Easily schedule your shades to move automatically so you don't have to. PowerView also allows you to easily link to sunrise and sunset times, to control solar energy throughout the seasons or wake with the sun.

STEP 2

SELECT THE FINISHING TOUCH

CHOOSE A DESIGN OPTION

Luxaflex Duette Shades feature some of the most innovative and sophisticated design options to maximise light and privacy control.

Bottom Up

Features traditional operation where the bottom rail is raised to open the shades.

Top Down

Fixed at the bottom of the window, shades are lowered to let light in and raised to the desired height for privacy.

Top Down/ Bottom Up

Allows the shades to open from the top and bottom for complete light and privacy control.

Duo-Lite

Combines two fabrics on the one shade offering both the ultimate day and night solution.

TrackGlide®

Enables full functionality of a tilt and turn window allowing the shade to stay in place when the window opens or turns.

LightLock®

Provides the next level in ultimate room darkening with patented side channels that restrict the halo effect.

Skylight

Ideal for skylights, sloping windows or any hard to reach windows.

Shapes

Fixed shapes are the perfect solution for almost any window size and shape.

STEP 3

SELECT THE FINISHING TOUCH

SELECT A CELL SIZE CONSTRUCTION & FABRIC OPACITY

Fabric Cell Size and Construction

Duette Shades feature honeycomb air pockets designed to insulate your home & help you save on your heating and cooling costs all year round.

Choose from either a single-cell construction or upgrade to the industry-leading Architella fabric range which features the patented cell-within-a-cell construction for superior insulation. Duette Architella Shades feature three distinct air pockets which trap air within each cell deflecting heat, reducing heat loss in winter and keeping the home cooler in summer.

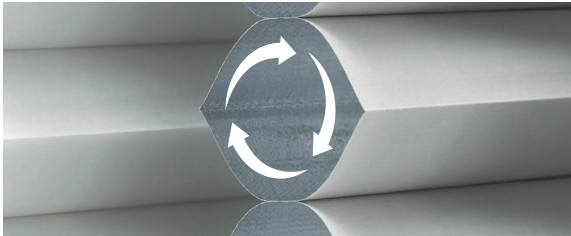

Fabric Opacity

Customise the level of privacy and light required through the choice of three distinct opacities -sheer, translucent and blackout. Control the amount of light entering your home and create the perfect ambience in every room.

FABRIC CELL SIZE & CONSTRUCTION

20mm Architella Double Cell

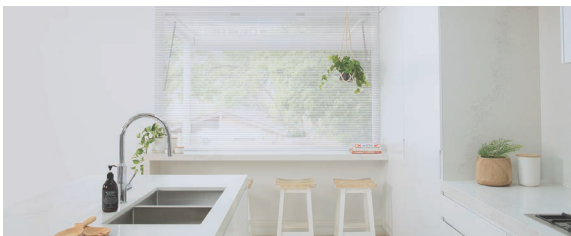

20mm Single Cell

10mm Single Cell

FABRIC OPACITY

Sheer

Sheer softly filters the light and allows for view-through.

Translucent

Translucent screens out harsh light whilst still providing daytime privacy.

Blockout

Blockout gives you the ultimate in privacy and light control by completely blocking out light.

STEP 4

SELECT THE FINISHING TOUCH

CHOOSE FROM OUR LUXURIOUS FABRICS AND COLOURS

Renew

Chic and sophisticated, Duette fabrics can transform interiors while providing comfort, light diffusion and privacy. Available in a wide range of beautiful fabrics in classic and contemporary tones and textures, they can create the perfect focal point in a room or seamlessly blend with any décor style.

Escape and Embrace

Reinforce Minimalism

Awakening

The Duette fabric collection has been carefully curated to deliver a comprehensive fabric range that seamlessly aligns itself with leading trends of the modern world.

There are four key themes influencing the leading Duette Fabric Collection, including Reinforce Minimalism, Escape & Embrace, Awakening and Renew. These trends influence design choices for the home, including wall colour, furniture through to blinds and awnings.

Reinforce Minimalism

Influenced by simple and bold designs, this trend incorporates a colour palette that will stand the test of time including warm buttery creams, off-white variations, greys and black tones.

Renew

The renew theme is inspired by the revival of familiar and existing elements. It embodies vintage styles such as traditional textures and timeless colours from the past and transforms them into contemporary pieces.

Awakening

This trend embodies a rich world of colour, creativity and luxurious appeal. It includes rich burgundy, eggplant, metallic browns and deep blue tones to introduce vivid mid-tone colours into neutral space.

Escape and Embrace

Embracing our reconnection to the elements of nature, this trend focuses on bringing the outdoors in with genuine natural colour tones.

THE LUXAFLEX DIFFERENCE

LUXAFLEX® DUETTE® SHADES

Innovation is our Heritage

Luxaflex Window Fashions has been a leading brand in Australian homes since 1954. With a Dutch heritage, design and innovation are at the core of the brand. The Luxaflex brand has continued to expand the Australian product range, combining the best of international and local innovations.

Australian Made Quality

Supporting local jobs, most of our product range is made to measure in our Australian factories. Our local production ensures we maintain strict quality controls and faster lead times for our customers. We stand behind our products by offering a 5 Year Manufacturer's Warranty[#].

Industry Leading Designs

Many of our products are patented and exclusive to Luxaflex Window Fashions. Our entire range is engineered and thoroughly tested to meet the high quality standards of the brand, but also to deliver high performance in our harsh Australian environment.

Child Safety

All Luxaflex Window Fashions are designed with safety in mind and are compliant with the latest ACCC Child Safety Regulations to ensure they can be operated in a safe manner.

Personalised Service

All Luxaflex products are custom made to your window requirements so they fit perfectly. Our Luxaflex showrooms provide the ultimate experience, from your initial enquiry and showroom visit through to the after-sales service.
