Timeless and soft vertical design.

Innovative 2-in-1 Design

Featuring a softly curved vertical design for a striking interior statement, Luminette Privacy Sheers integrates the functionality of two blinds into one stunning shade, offering a soft sheer fabric facing with vertical fabric vanes.

Perfect for large windows and sliding door applications.

Wide Applications

Ideal for expansive windows and sliding doors, Luminette Privacy Sheers can be neatly stacked to the side, providing an unobstructed view and instant access to sliding doors.

Vanes Closed

Filter Out Glare

Allow daylight to softly diffuse through the sheer when opened. The sheer fabric facing evenly spreads light throughout the room, minimising the need for artificial light and providing daytime privacy.

Control the level of light entering the room whilst maintaining external privacy.

Light & Privacy Control

Effortlessly rotate the vertical soft fabric vanes for variable light control, angling sunlight into the room. Close the fabric vanes completely to provide privacy and room darkening.

Seamless Coordination

Complement Luminette Privacy Sheers with Luxaflex® Silhouette® Shadings or Pirouette® Shadings to establish a sumptuous style that flows seamlessly throughout the home.

Softrak® Scissor Hardware System

The exclusive Softrak® Scissor Hardware System provides incredibly smooth, whisper-quiet and reliable operation whilst allowing the vertical fabric vanes to rotate 180 degrees for ultimate privacy.

Cleverly Engineered

The slimline headrail conceals the Softrak® Scissor Hardware System, whilst the sheer fabric creates a self-pelmet for a sleek and refined finish. Six on-trend hardware colours coordinate with the wide variety of fabric colours.

Easy Maintenance

Made from 100% anti-static fabric that naturally repels dust and dirt, making them a low-maintenance aspect of the home.
