CLEARVIEW™ FABRIC

LUXAFLEX® PIROUETTE® SHADINGS

Pirouette Shadings
with ClearView™
fabric for superior
view through

LUXAFLEX® PIROUETTE® CLEARVIEW™ SHADINGS

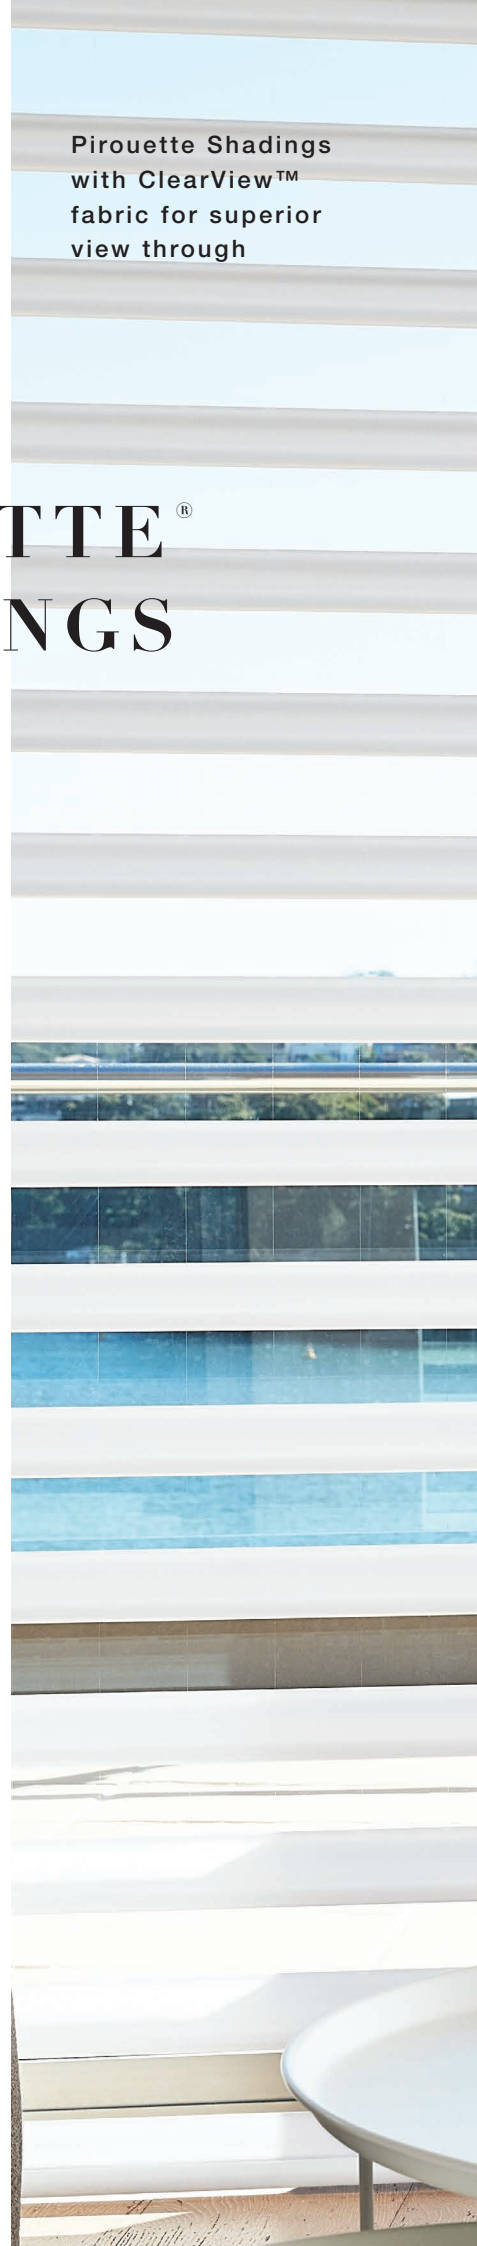

Luxaflex Pirouette® ClearView™ Shadings are crafted with a specialised black sheer providing superior views, beautiful light control, and UV protection.

A Perfect View

Soft horizontal fabric vanes that float on a sheer backing allow you to achieve infinite combinations of light control, privacy and view-through. Maximise those views with Pirouette Shadings with ClearView™ fabric. A patented sheer fabric offers unobstructed views to the outside while transforming the light inside into a comforting glow.

Optical Illusion

Our Invisi-Lift system gives the impression that your shadings are floating gracefully, without obvious cords or controls.

LIGHT CONTROL AND PRIVACY

LUXAFLEX® PIROUETTE® SHADINGS

THE PERFECT CURVE

Innovative Design

Pirouette Shadings feature a revolutionary and patented Invisi-Lift system which allows the fabric vanes to be opened and closed without obvious cords obstructing the view through, whilst providing the appearance of floating fabric vanes.

UV Protection

The sheer fabric backing filters UV rays and helps to reduce glare for an enhanced view through. Block harmful UV rays with the vanes open and closed to protect your furnishings and extend their life.

Flexible Light Control

Elegantly open the fabric vanes to any position and allow daylight to diffuse through the sheer. For complete privacy, the contoured fabric vanes can be flattened and closed.

STEP 1

SELECT THE FINISHING TOUCH

SELECT AN INNOVATIVE OPERATION

POWERSVIEW® MOTORISATION

With Luxaflex PowerView Motorisation, the world's most beautiful window fashions are now the most intelligent. This innovative wireless operating system automatically controls and powers a wide range of Luxaflex internal and external window covering products creating the perfect room ambiance morning, noon and night.

Simply program PowerView to move your window shades to the exact position you want and then control and schedule them using the intuitive PowerView App.

“PowerView is a cost effective automation solution. Integrate with your existing home automation systems to create a whole-home connected experience.”

Take Control

You can operate your shades with the touch of a button using the stylish Pebble® Remote Control, smartphone or tablet device (via the PowerView App), or with voice command using Google® Home, Apple HomeKit® or Amazon® Alexa®.

The PowerView Pebble Remote Control is ergonomically designed and is available in ten colours. Control up to six groupings of window treatments either individually or together.

The PowerView Pebble Scene Controller features an advanced display screen that lets you conveniently preview and select room scenes that have been programmed using the PowerView App.

Flexible Schedules

The PowerView App unlocks the full potential of PowerView Motorisation. Using the App on your smartphone or tablet, you can quickly create customised Scenes or schedules that control all the shades in your home to operate together or in any combination you desire. Easily schedule those Scenes to move your shades automatically at a set time or coordinate with Sunrise and Sunset.

Battery Powered

Most PowerView blinds are battery-powered making them easy to install with no electrician required and are simple to operate and maintain. The battery-pack is hidden behind the headrail so there's nothing to mar the beauty of your window shades.

Child Friendly

Along with the added convenience of cordless operation, PowerView creates a safer environment for homes with young children and pets.

Energy Efficient

Customise Scenes to ensure your windows are shaded during the peak sun exposure times during summer and cooler times during winter to control solar energy throughout the seasons and keep the sun from fading your furniture.

Connect From Outside The Home

The RemoteConnect feature, along with an internet connection, allows you to operate your shades from anywhere in the world, using your smartphone or tablet.

Smart Home Automation

PowerView is a cost effective automation solution. The PowerView Hub can integrate with your existing home automation systems like Google Assistant, Apple HomeKit and Amazon Alexa to create a whole-home connected experience.

STEP 1

SELECT THE FINISHING TOUCH

SELECT AN INNOVATIVE OPERATION

ULTRAGLIDE® AND EASYRISE

Tilt, raise or lower your shadings for complete light control. Designed for simplicity, ease of use and enhanced child safety, combine your Pirouette Shadings with one of our unique operating solutions including EasyRise or Ultraglide® Operating Systems.

Ultraglide® Operating Wand

The Ultraglide wand system for Pirouette Shadings features a retractable wand mechanism, that remains a consistent length when raising or lowering the shadings.

For precise vane adjustment or to raise the shading, simply pull the wand straight down with short strokes. To lower, pull the wand out toward the room and with one click, the shading will release.

Ergonomically designed, the wand seamlessly colour coordinates with existing hardware.

EasyRise Operating System

EasyRise Operating System features a continuous cord loop system for easy operation. Simply pull down on the rear cord of the cord loop to lower your shade and tilt the fabric vanes. Pull on the front cord of the loop to raise it.

EasyRise also has enhanced child safety features with a cord tensioner that mounts securely to the window frame or wall.

STEP 2

SELECT THE FINISHING TOUCH

SELECT A VANE SIZE AND FABRIC OPACITY

Vane Size

Available in two fabric vane sizes, 100mm or 120mm. The 100mm is only available in the Satin and Satin Metallic fabric ranges.

Opacity Options

Customise the level of privacy required through the choice of room darkening or translucent fabric opacities. Room darkening fabrics provide privacy without complete darkness when closed, while translucent fabrics deliver privacy and a soft, natural glow.
