DESIGN OPTIONS

MATERA SKY AND MATERA PERGOLA

The Matera Retractable Pergola range offers two smart solutions, depending on your space and needs:

MATERA PERGOLA

A stunning architectural centrepiece, Matera Pergola is a retractable pergola with clean lines and an ultra-modern profile. Unlike other awnings, it features a fixed aluminium frame and a retractable tensioned fabric that glides open and closed with ease, giving you full control over light and ventilation.

MATERA SKY

If you already have a pergola or outdoor frame, Matera Sky lets you enjoy the benefits of a retractable pergola without replacing your existing structure. It's a smart, stylish upgrade for existing outdoor areas and an ideal alternative to outdoor blinds or awnings.

Designed to be mounted to a fixed frame, Matera Sky provides the same beautiful finish and motorised fabric tension system, in a more flexible format.

Engineered as a premium shading system, it requires a 12-17 degree slope for optimal installation (not intended for rain protection). Matera Sky is powered by Somfy® Orea RTS motors for whisper-quiet, reliable operation.
